

**Warehouse Clearance
Sale May 22-31**

**Federal Surplus
Property (FSP)
Is On the Move!**

New FSP Warehouse location at 3416 Bennett St., Boise will be fully operational in July.

After 10 1/2 years in one location, FSP is on the move again! We appreciate all the support from our customers throughout the past years.

Now we are downsizing; going from 20,000 square feet to 13,500 square feet.

This move will enable us to serve you better through higher quality property and affordable prices.

Our move will start on May 15 and should be complete by June 30, 2006. Our new location is **3416 Bennett Street, Boise.**

Warehouse Clearance Sale May 22-31

To make this move happen quickly and smoothly there will be a warehouse clearance sale at the present location, 6941 South Supply Way, from May 22 through May 31, 2006. **Everything will be reduced in price by 60%.** (See back page for examples of available items for sale)

Help us move, by moving our inventory!

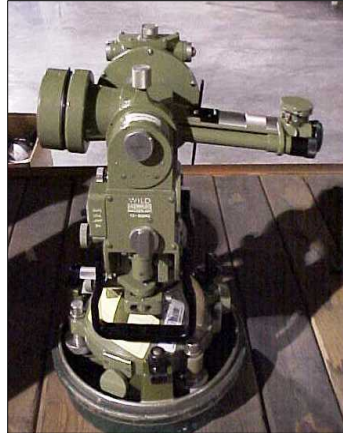

Directions to New Warehouse Location

Directional signage is planned.

For more information, contact **Bruce Hutchinson**, Business Manager, 332-1629, bruce.hutchinson@adm.idaho.gov

About Federal Surplus Property: The Federal Surplus Property program acquires property no longer required by the federal government and transports, stores, and distributes the property to eligible agencies and programs. The **Department of Administration** administers the Federal Surplus Property program in Idaho. Participation is limited to state agencies, public agencies, and some non-profit organizations. The property is donated by the federal government, but costs are associated with administrative services and shipping to the Idaho warehouse. Additional shipping costs apply to deliver property to a customer's location. The Federal Surplus Property program conducts no auctions or public sales. Federal Surplus Property includes a wide variety of new and used property; such as equipment, vehicles, furniture, office supplies, etc.

From Computer Desks to Water Analyzers ...

Pictured are examples of the approximately 1,000 available FSP inventory items. Top row, from left: computer table, storage cabinets; second row, from left: Fire ignition device (provided by the US Forest Service); Theodolite (surveyor's tool), table saw; photo at right: water analyzer; bottom row, from left, wheel balancer, lawnmowers and tool boxes on roll around.
